Martha's Vineyard can be such a spectacular place to fish, especially from the shore. You want your time spent here to be productive and time well spent. Fishing the Vineyard can be challenging and frustrating at times. It is important to know what tide and which type of bait or lure works best for the location that you are at. Whether you are a veteran surf angler or just starting out, the Vineyard can be intimidating at times.

Having a fishing guide can be a huge asset if you never fished the waters around the Vineyard. I have fished the shores of Martha's Vineyard for the past 19 years. I was a contributing writer for On the Water magazine and I am currently a corporate member of the Martha's Vineyard Striped Bass and Bluefish Derby. When not fishing I am a high school teacher, father, husband and soccer coach. I will take you places on the Vineyard that are reknown for fishing and are breathtaking, inspiring and unforgettable.
